BANS 100S OF HOLOCAUST REVISIONIST BOOKS!

MAR 2017

katana17.wordpress.com

Amazon has now banned hundreds of books written by revisionists on the so-called "*Holocaust*" after being pressured by organized jewry. Despite the books remaining available at much smaller outlets this will have a large negative impact on the public being able to access the revisionist side of the argument that exposes the "*Holocaust*" Industry's lies. This move is further evidence of organized jewry's desire to impose a tyrannical muzzle on our ability to not only speak truth to jewish power, but also what we can even read and consequently think.

The jewish "*Holocaust*" lies that have been imposed upon Whites represents the keystone that supports a whole system of other jewish ideological lies that attack and seeks to destroy White societies through guilt tripping us into racial self destruction.

Amazon, by bowing down to organized jewish demands to remove revisionist books, is showing that it now supports jewish supremacism and is against historical truth, and therefore also anti-White.

A silver lining to this banning of Revisionist books is that it is effectively a **declaration of defeat** on the part of the "*Holocaust Industry*". It sees it cannot win the argument, so it resorts to banning the Revisionist's argument from public circulation!

Amazon Mass-Bans Dissident Materials

Hundreds of Titles Erased within a Day

On February 23rd, 2017, the world's media started spreading the news that Israel's government-sponsored [Yad Vashem Holocaust Memorial Center](#) started [putting Amazon under pressure to remove any and all material that questions the orthodox Holocaust narrative](#). Interesting in this context is the reference by Yad Vashem and the world's media that one reason to ask for this act of censorship was the recent “*unfortunate change in climate with more-visible antisemitism*” (*Jerusalem Post*, Feb. 23, 2017).

We at **Castle Hill Publishers** were holding our breaths. Amazon had been criticized by the media many times before for allowing the sale of controversial material on their website, but they never censored anything that was legal. So at first, nothing happened. But then, as if ordered to emphasize the urgency of Yad Vashem's request, two Jewish cemeteries were vandalized, first one in Philadelphia (Feb. 27), then allegedly another one in New York (Mar. 3). The New York case, however, was later [retracted](#): the tombstones there had fallen over decades due to age. Be that as it may, the cemetery stories added fuel to the fire in which Amazon's feet had been put.

Then, on the first workday of the week following the second (false) cemetery story, on March 6, 2017 at 6:39 pm, we received the following email from Amazon's EBook Subsidiary Amazon KDP, that is to say, Kindle:

Amazon.com bans thousands of book titles in blitzkrieg on free speech

By Paul Angel

“Who controls the past, controls the future,” or so said George Orwell in his prescient book *1984*. He also warned that “The most effective way to destroy people is to deny and obliterate their own understanding of their history.” So it seems the global thought censors are taking Mr. Orwell literally. As we went to press, we received word that possibly thousands of history books and e-publications have been removed in one fell swoop from the largest and most lucrative vending website in the world—Amazon.com, owned and run by Jeff Bezos (currently worth at least \$250 billion, according to on-line sources). Note that Amazon by itself accounted for 60% of all sales on Black Friday 2016 for all venues—online and brick and mortar stores combined.

Most of the books removed from Amazon deal with alternative views of World War II history, including hundreds of scholarly tomes by chemists, scientists, researchers and philosophers dealing with the details of the WWII “holocaust of the Jews.”

One publisher, Lance Frickensmith, proprietor of World War Two Books & Videos, says he had some 770 titles wiped out with the push of a button. Revisionist historian Gernar Rudolf, one of the world’s most reputable revisionist scholars, informed us that Castle Hill publishers had 100 titles—both in e-version and print—removed for sale from Amazon.

Anti-Zionist Jewish philosopher Gerard Menahin saw his book *Tell the Truth and Shame the Devil*—a book about Zionist power—removed from Amazon

in the blink of an eye. *The Bad War: The Truth Never Thought About World War II* by Michael King, a book touching on the role of the Rothschilds in fomenting unrest in Europe before WWII, was also banned. We expect more book burnings to come.

So how does one so efficiently carry out the biggest book banning since 60,000 titles were removed from the shelves of German libraries after World War II by the victorious powers? Who holds such power over companies like Amazon and Google and YouTube who represent, together, net worths of somewhere approaching a trillion dollars?

According to *The Jewish News* (TJN), Britain’s

biggest Jewish newspaper, a group called The Board of Deputies of British Jews (BDBJ) is taking partial credit. According to TJN, BDBJ Vice President Marie van der Zyl said: “It is very welcome that Amazon has listened and removed the offending titles from their website. These are not works of historical integrity. They are an anti-Semitic attempt to exonerate the Nazis of their crimes and to stoke the fires of hatred.”

Ms. Van der Zyl further warned: “Should any member of the public find further offending works, please get in contact with us and we will report them using the appropriate channels.”

So, one might say, at the very least, after carefully interpreting the words of Ms. Van der Zyl, that “Judea has declared war on free speech.”

Gernar Rudolf had this to say: “The sweeping mass ban enforced within hours, and the senseless aimlessness and random nature with which it was implemented, clearly show that these books were not pulled because their content was checked and found impermissible, but because someone (probably Yad Vashem Holocaust Memorial Museum) had sent [Bezos] a list of items to ban, and Amazon simply complied by checking off all the items on that list.”

Dr. Kevin Barrett, who writes for this newspaper, had this to say in an online column on the subject: “In what amounts to a ringing endorsement of the claims of Holocaust revisionists, Amazon.com has apparently concluded that their books cannot be effectively refuted—and therefore must be banned.”

Still, hundreds of employees and many man hours must have been involved. Is it possible this was in the works for some time and, in anticipation of this move, a propaganda effort to convince the public that “anti-Semitism is on the rise” is being conducted, as shown by the hyping of hundreds of bogus threats against synagogues and Jewish cemeteries, most of

The Shuttening: Amazon Caves to Holocaust Lobby, Bans Skeptical Literature

By Eric Striker

March 9, 2017

When it comes to free flow of ideas and books, Amazon has always been extremely fair. The only outright censorship I can think of on this platform was when they pulled an e-book on how to groom and lure prepubescent children for sex (which they only banned after having defended it first).

I think it's pretty universal consensus to say that how-to books on raping children are obscene speech, not free speech. Nevertheless, Amazon still hosts a number of novels and books dealing with incest, pedophilia, bestiality and other disgusting crap.

Yet, when one book, "*The Pedophile's Guide To Love and Pleasure*" was yanked, some tech journalists were fuming at this puncture wound against "*free speech*," and a debate on what should and shouldn't be allowed raged.

Enter the Holocaust lobby.

After having been pressured by Jews, Amazon is beginning to purge books written by **engineers, academics and historians** on the laughable inconsistencies of the urban legend known as the Holocaust. Many of the more memorable claims associated with the Holocaust that were questioned by revisionists, such as human lampshades and soap, have in recent years been acknowledged as lies by Israel's Yad Vashem itself.

Recently, in an eye-brow raising admission, Jews confessed that the 5 million Poles, Gypsies and homosexuals they claimed for decades were gassed at Auschwitz and other camps was fiction made up by Simon Wiesenthal!

They were able to literally invent 5 million World War II casualties and get away with it for decades. That is because there is an unspoken rule that you can't contradict a Jew talking about the Holocaust, no matter how big and transparently fraudulent the claim is.

The only reason the 6 million figure continues to stick is that you're not allowed to question it.

Shock: Amazon Deep-Sixes all Holocaust Revisionist Books; Begs for a Boycott

By Carolyn Yeager

March 8, 2017

IN A MIDDLE FINGER TO AMERICAN CONSTITUTIONAL FREE-SPEECH TRADITIONS AND LAWS, Amazon.com has wiped all Holocaust Revisionist books from its website. Seemingly overnight, this assault on Truth has taken place, obviously in conformity with the international Jewish lobby against truth in historical research and publishing.

Jeff Bezos (pictured above) is worth around 80 BILLION dollars from the growth of the publicly-traded company he founded and owns. Amazon succeeded because of its liberal policies, but now that has changed. You'll look in vain for any of the Holocaust Handbook series edited by Germar Rudolf that had been available on the site, while you'll have no trouble finding all the books arguing for the '*Holocaust*', including the emotional, anti-historical diatribes of Deborah Lipstadt.

Amazon Decides That the Jewish “Holocaust” Cannot Stand Up to Critical Scrutiny

Amazon Decides That the Jewish “Holocaust” Cannot Stand Up to Critical Scrutiny

By Kevin Strom

March 8, 2017

Editorial Note by Kevin Alfred Strom: Giant, oligopolic sites such as Amazon are *de facto* public utilities and should be treated as such: They should not be permitted to censor public debate on ideas of significance. We should immediately put public pressure on Amazon to reverse this decision.

A FEW DAYS AGO, a lunatic Israel-first group calling itself “[United With Israel](#)” urged its mostly Christian dupes to participate in the Jewish pressure campaign to intimidate Amazon to stop sales of books that “*deny the Holocaust*” — that is, books which historically examine Jewish WW2 atrocity claims and find them wanting. Their boilerplate is copied almost word-for-word from that issued by many Jewish organizations in the past week or two in a tightly-orchestrated campaign.

The online retailer Amazon caved in to the pressure and has stopped selling three “*Holocaust denial*” books after Jewish groups insisted that they stop selling *any* books of which Jews disapproved on the topic. Jews have demanded such censorship for years, but the recent Jewish campaign to convince the world that “*anti-Semitism*” is an exploding, out-of-control “*crisis*” prompted Robert Rozett, a senior official at Jewish “*Holocaust remembrance*” group Yad Vashem, to orchestrate the latest pressure campaign on Amazon CEO Jeff Bezos — in which hundreds of Jewish and Christian groups called for “*immediate action*” to censor historical works that dispute Jewish claims.

On Wednesday morning, the three titles that Mr Rozett had mentioned in his campaign were suddenly unavailable for purchase. Two were not showing up in searches, and one was listed but with a note saying that it was “*under review*” and could not be bought. This was the case for both US and UK stores.

Mr Rozett said the company had taken a “*positive first step*” which showed that they were listening to him and other Jewish groups that echoed his demand, such as the **World Jewish Congress**.

The titles in question were:

Holocaust: The Greatest Lie Ever Told, by Eleanor Wittakers;

The Hoax of the Twentieth Century: The Case Against the Presumed Extermination of European Jewry, by American professor Arthur R. Butz and;

Did Six Million Really Die? by Richard Harwood.

Go Ahead, Amazon, Make My
Day

After years of pressure, Israel has finally succeeded in coercing the world's largest booksellers into submission. The flickering candles of honest history are now being snuffed out.

Amazon-published books that dispute what George Orwell described as 'the prevailing orthodoxy', are today being thrown on to bonfires lit by the holohoax hucksters.

Harold Covington put it in a paragraph:

“Take away the holocaust and what do you have left? Without their precious holocaust what are the Jews? They are just a little grubby bunch of international bandits, assassins and squatters, who have perpetrated the most massive, cynical fraud in human history.”

Unable to deny evidence of massive holocaust-related fraud Yad Vashem has finally resorted to outright censorship. In a futile attempt to buy time the Israeli funded body is now desperately trying to hide proof of their guilt.

In May, 1945, **Doctor Joseph Goebbels** penned the words:

“Do not let yourself be confused by the uproar that will now reign throughout the world. The lies will one day break down under their own weight and the truth will again triumph. The hour will come when we shall stand pure and undefiled as our aims and beliefs have always been.”

American journalist Mark Twain agreed:

“A lie will travel the world while the truth is still pulling its boots on.”

Truth has now pulled its boots on and having cornered the holohoax hucksters Truth is set on doing some shit-kicking.

Amazon Bans "Holocaust Denial", Shreds and Incinerates Thousands of Books

Hundreds of important books on the Holocaust by revisionist scholars have suddenly been banned by Amazon on instructions from angry rabbis in Israel (*see video at the end of this article*) and from Yad Vashem, the World Holocaust Remembrance Center in Jerusalem.

Even books *not* directly relating to the Holocaust, but pertaining to Jewish affairs during WWII, have been included in the mass ban. Revisionist scholar Germar Rudolf has given a complete list of these books (*see below*) and it's highly likely more volumes will be added to this growing list of “forbidden books” in the days ahead.

Meanwhile, in an apparent attempt to muddy the waters, [The Times of Israel](#) published an article a few days ago in which it stated that only *three* books have been banned by Amazon in the UK — without referring to Amazon in the US or the long list of banned books mentioned by Germar Rudolf on CODOH. (See [Amazon Mass-bans Dissident Materials, Hundreds of Titles Erased within a Day](#))

A reliable source informs me that *several thousand volumes* have been shredded or put through incinerators at Amazon, but this is hard to verify. This has to be one of the greatest acts of cultural vandalism perpetrated within recent times. In characteristic Orwellian fashion, many historical facts are being “flushed down the memory hole” and false factoids put in their place — like the fairy tales spun by Elie Wiesel, e.g., [Jewish blood gushing from the ground in geysers](#) (*picture*).

The Cultural Vandals dare not debate these matters in public, preferring the Stalinesque weapons of censorship and intimidation, followed in many cases by fines and imprisonment.

Michael Hoffman

Amazon Bans World War II Revisionist Books

By Michael Hoffman

March 8, 2017

Today **Amazon**, the huge, Seattle-based online book distributor, has removed from sale “*dangerous*” books authored by **Dr. Arthur R. Butz** of Northwestern University, **Carlo Mattogno** of Italy, and other eminent dissident scholars who dare to ask scientific and technical questions about the operation of alleged homicidal gas chambers in Auschwitz. These heretics have trespassed on the sacred liturgy of Holocaustianity and their

troubling treatises must be forbidden so as to preserve the holiness of World War II dogma.

Amazon has been selling these and similar books for years, but in the past 20 months rabbis and the **Yad Vashem** “*Holocaust*” museum have pressured Amazon to remove these and cognate titles. Moreover, Amazon’s owner, **Jeff Bezos**, purchased the *Washington Post* and fashioned it into a beachhead of Left wing orthodoxy. The process may have politicized and neutralized his formerly Libertarian instincts.

Books advocating Satanism and sodomy, and denying the Allied holocaust against German civilians, and the Israeli holocaust against the Palestinians, continue to be sold by Amazon.

The censorship is conducted under the rubric of “*fighting hatred*” and “combatting anti-Semitism.” But this is just special pleading. Books evincing hatred for Germans, Arabs, Iranians and white southern “*deplorables*” are all on offer at Amazon, as are books denying that Jesus Christ rose from the dead. So it all depends on whose ox is being gored. As many of you know, there’s one sacred cow that is more equal than others. Its name is the Golden Calf.
